

**Iscove's Modified Dulbecco's Medium
with L-Glutamine and HEPES
(IMDM)**

Catalog #09611

Product Description

Iscove's Modified Dulbecco's Medium (IMDM) is a modified DME medium, which contains high D-glucose (4,500 mg/L), sodium pyruvate, additional amino acids, selenium, HEPES and other supplementary components. This highly enriched synthetic medium is well suited for supporting the growth of a broad range of mammalian cell lines.

Product Use

IMDM is for research use only. It is not approved for human or animal use, or for application in *in vitro* diagnostic procedures.

Storage

Store the medium at 4°C. Protect from light.

Shipping

Room temperature.

Caution: If handled improperly, some components of the medium may present a health hazard. Take appropriate precautions when handling it, including the wearing of protective clothing and eyewear. Dispose of properly.
